Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-28 are presented for examination.
2. In the previous Office Action at paragraph 4, the examiner stated that "The applicants' should include any additions that were made by a Certificate of Correction to the original patent grant in the reissue application without underlining or bracketing". Applicants' response in the Remarks of 6/10/03 state "Applicants do not understand this statement as the Certificate of Correction dated June 26, 2001, does not contains such underlining or bracketing."

Certificate of Correction changes must be entered in the reissue application without bracketing or underlining. This will incorporate the changes as part of the original patent and not as changes in the reissue. Any change to the text of a claim (original or new) must be presented as an entire numbered claim. All subject matter being added to an original patent claim must be underlined. All subject matter being deleted from an original patent claim must be placed between brackets. 37 CFR 1.173(b)(2) and (d). Subject matter being added to a new claim requires rewriting (and underlining) of the entire new claim. Therefore, the requirement that the Certificate of Correction changes must be entered in the reissue application without bracketing or underlining indicates that the changes to a claim are the result of a Certificate of Correction, the changed claim being part of the original patent.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Shahraray et al.

In claim 28, Shahraray et al. teach the claimed a) receiving electronic data representing a condensed version of a video program, said video program having video component and a second information-bearing media component associated therewith, said electronic data representation including a representative frame from each segment of the video component of the video program and a portion of said second media component associated with said segment, at page 514; b) automatically transforming said electronic data representation into a hypertext format to form a hypertext pictorial transcript, at page 515 at paragraph 4 and page 517, figure 3; and c) recording said hypertext pictorial transcript in an electronic medium, at page 515 at paragraph 5.

Art Unit: 2672

5. Claims 8-17 and 22 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 8, 9 and 22 depend from claim 1 either directly or indirectly, and recite features which are already contained in claim 1. Therefore, claims 8, 9 and 22 fail to further limit the subject matter of claim 1.

Claims 10-17 are objected to based on dependency from claim 9.

6. Claims 1-7, 18-21, 23-27 are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Almis R. Jankus whose telephone number is 571-272-7643. The examiner can normally be reached on M-F, 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi can be reached on 571-272-7664. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
